A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 11 months." For Those Who Live On Farms.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend to my friends, as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50c and \$1.00 at Arcadia Valley Drug Co.

Cures When Doctors Fail.

Mrs. Frand Chasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at Arcadia Valley Drug Co.

A Few Facts Concerning

Rupture

In order to become proficient in the cure of rupture, years of preparation and experience are necessary in order to practice with any degree of certainty. Dr. W. A. Lewin, the rupture specialist, is a graduate of several European and American colleges and has devoted many years to the study of this particular branch of medical science.

He treats rupture without the use of the knife, without drawing blood, without danger and without detention from regular occupation. All is accomplished within a few weeks and no one is pronounced cured until the opening through which the intestines protrude is entirely closed and permanently healed. This is done by building up new tissue, a growth similar to that over a wound that has healed, so that the patient is stronger at this spot than he was before the rupture occurred.

Consultation and advice free. No pay required until cured to your entire satisfaction. Send for free booklet containing testimonials. 10,000 patients cured. Call or address,
